## VALUABLE FEEDBACK

**"The Faraone Bros are two of the most vibrant and exciting DJs we've come across in years.** Not only do they span such an eclectic mix of genres, ranging from everything in the House scene, to Disco, Breakbeat, elements of Hip-Hop, Garage and even DnB, but the way they take you on a journey through their sets makes them really stand out. **The music selection is always on point, and the energy the two of them bring is unrivalled** and totally infectious. You can not watch these boys play and it not rub off. You get lost in the moment, dancing till your feet get sore. A huge firm favourite over at Fun-Da-Mental Productions, they have performed at multiple events for us, from festivals to club nights, and they always pull a crowd. Our audience adore them. **Their production is quite simply fantastic** as well. They've stacks of quality tunes of their own in the locker as well as countless bootlegs and remixes they've created. I've always thought certain artists shouldn't be remixed, then these guys come along and show that if it's done well enough, nothing is off limits. **If you get the chance to witness these guys do their thing, don't think twice, as there ain't no party like a Faraone party.**"

"At Dub Mantra we look to support up&coming artists who offer variety and a unique approach in both production and Dj'ing. The FaraoneBros are a prime example of this by venturing across many genres whilst maintaining a crisp production sound and seamless mixing capabilities. We have had the pleasure of working with this duo for a while now and they always guarantee a full crowd who are involved in every way possible.

**This duo will no doubt be a formidable force in the years to come."**
